Values for number of winners, placed horses, total rides and win percentage are displayed by various criteria. The values are extracted from the past twelve months results for turf racing only.

The following statistics criteria are included.

- All rides. This includes a rating as described in the Jockeys topic.
- Rides at Happy Valley and Sha Tin. This also includes a rating derived from results at each course.
- Rides at sprint, mile and middle distance ranges.
- Rides at the three pace styles if they can be defined.
- Rides for each trainer that used this jockey in the past year.

A Links section is then displayed

From here you can display results for the jockey for various criteria and invoke the HKJC jockey page that gives more details of the jockey's career.
