

# Draw Statistics

The Draw Statistics page presents details for each Course/Track/Distance combination, calculated by extracting from my database of approximately 10 years of results.

Rather than producing stats for each individual draw I felt that more consistent figures would be produced if I concentrated solely on Low, MidLow, MidHigh and High draws, as follows

- Low (stalls 1 to 3)
- MidLow (stalls 4 to 6 at Happy Valley and 4 to 6 at Sha Tin)
- MidHigh (stalls 7 to 9 at Happy Valley and 7 to 10 at Sha Tin)
- High (stalls 10 to 12 at Happy Valley and 11 to 14 at Sha Tin)

The Course, Track and Distance should be selected from the Draw Statistics page, then when the Select button is clicked, the Draw Range stats will be displayed
